

Cell Phone Answering Service

Top Five Reasons You Need a Cell Phone Answering Service:

Key Benefits

- *Easy*
- *Affordable*
- *Improves customer service*
- *Safe*

Key Features

- *No special equipment*
- *No software to set up*
- *Live agents*
- *Two ways to get started*

1) Keep Yourself and Others Safe: Don't be another crash statistic! The impact of mobile devices on driving safety is a growing concern. The U.S. Department of Transportation's website, Distraction.gov, states, "Drivers who use hand-held devices are four times as likely to get into crashes serious enough to injure themselves." (Ref: distraction.gov, 2010). Use of a cell phone answering service can eliminate calls answered while driving.

2) Avoid Tickets and Fines: There is a real temptation to answer a ringing phone even if answering that call is illegal. The better way to handle these calls is to use a Cell Phone Answering Service. The caller speaks with a live person who can handle requests for you, take a message and/or screen your calls so you can pull over to take only the most urgent.

3) Emergencies Only: What if a new customer, a current customer or a family member has an emergency? Some calls you need to take as soon and as safely as possible. A cell phone answering service is a responsible and safe solution.

4) Improve Service and Profits: Two-thirds of callers will hang up if they get your voicemail. Staffing the office to take all your calls can be very pricey—especially for a small business owner. When you use our Cell Phone Answering Service, your client and prospects speak with a live person, resulting in better customer service.

5) Reduce Stress: Interrupted meetings, distractions on the job and too many calls at the wrong times are stressful and interrupt the flow of your business day. Go on about your business and let our live agents answer your cell phone for you.
