Commercial Vehicle Dealer

AnswerNet begins building the relationship between you and your customers from the first call. Acting as an extension of your business, we take the dealership to your customers—helping you to develop and implement a campaign designed to make prospective customers aware of your business.

Don't wait for customers to walk through the dealership's doors. Whether you are selling new or used vehicles, offering vehicle service or providing parts, AnswerNet can be your trusted telesales provider.

Our team of professional telesales agents is adept at reaching decision makers and identifying those ready to buy. We can set appointments for clients to meet with you one-on-one, hand warm leads over to your capable sales team or close the deal for you. Whatever you need, AnswerNet is here to help.

AnswerNet's agents call business owners, fleet managers or other decision makers for new truck purchases. Representing you, we talk to the decision makers about their buying plans, timing and key considerations for new vehicles.

By using AnswerNet, you can establish a successful program that targets your key market, resulting in increased sales and revenue.

Call 800-411-5777 now, and start building up your business with AnswerNet.
