Do you provide towing or other emergency services? Do you need to reach a member of your team right away? Is there a call, email or fax that you must respond to immediately?

The capability to receive, respond and act on an urgent or emergency call is crucial to you, your customers and the success of your business. Using AnswerNet's Dispatch Services, your calls are responded to 24/7/365, ensuring your business is always available to your customers.

AnswerNet provides you with a local or toll-free number that can be answered by our agents. Our dispatching agents follow the script accurately—all calls are handled to your specific needs. They take detailed, accurate messages and dispatch those messages to pre-selected personnel to handle the situation.

AnswerNet's Dispatch Services are fully customizable to meet your business needs. Our Dispatch Services include towing dispatch, sales staff notification, utility service call dispatch, property management repair calls and much more.
