Indirect Partner Referral Program

AnswerNet's Indirect Partner program is a simple way to leverage a business relationship and complementary product lines. When your customer needs a telephone answering service, refer AnswerNet. If we win the business, we pay you a referral commission. It is that simple.

Value-Added Services

AnswerNet offers add-on services that can be profitable for you. Offer a complementary telephone-based service or an electronic information management product from AnswerNet to enhance your own services. AnswerNet wholesale pricing lets you maintain your margin flexibility. We'll even train you. Our outsourced services are invisible to your client—all they see is a wider variety of valuable options and great customer service.

Call Center to Call Center Partnering

AnswerNet is known as the "*call center's call center.*" AnswerNet can help when you need:

- Additional capacity
- Help covering spikes in call volume
- After-hours or overflow services
- To maintain (or reduce) headcount while improving efficiency

AnswerNet has 28 call centers across the United States and Canada, deploying a variety of telephony and database technologies. Transitioning your overflow to an AnswerNet center is fast, easy, seamless and most importantly, completely transparent to your client.

Independent Sales Representatives

Reselling contact center services from AnswerNet can provide you with a healthy revenue stream. If you are an independent consultant within the call center industry, we would love to talk to you.

Acquisitions

Have you been considering selling all or part of your teleservices business? AnswerNet is always keenly interested in acquisitions. In fact, many former call center owners came to work for AnswerNet after the company was acquired. See what we can bring to the table.
