Real Estate

In the real estate industry, it is important to provide clients, owners and tenants with great customer service. AnswerNet can provide your real estate or property management team with award-winning call center support, from answering services to building maintenance management.

When choosing AnswerNet for your telephone answering needs, you can be confident that our agents will answer your calls with a level of professionalism and courtesy. Our agents will act as an extension of your team. If you or your staff is actively real estate farming, you can rest assured that our agents will act professionally, helping you build your business in a particular neighborhood or geographical area.

AnswerNet also offers Online Appointment Scheduling Services. With our web-based appointment scheduling system, your office can check, add, delete or reschedule client appointments without overlap, at any time from any web-enabled device.

Additionally, we understand the importance of maintaining a full complex with great quality tenants. Manage the maintenance of your residential or commercial property with AnswerNet's Building Maintenance Management Services.

AnswerNet offers a web-based real estate maintenance work order system with live agents available to manage your maintenance requests and dispatch maintenance calls. From maintenance staff to contractors and management— using our Building Maintenance Management Services keeps everyone on the same page, ensuring a safe and happy residential community.
